

LED Stick RGBW Digital

24V 60/m

Long lifespan LED Stick which can realize individual control and full color change.

Application:

- Flexible LED Display/Curtain
- Indoor & Outdoor decoration
- Nightclub, Party, Hotel backlighting
- Building decoration

Technical specification

Dimensions	width: 18mm, height: 20 (+20) mm, length: 1000mm
Weight	460 g
Number of LEDs	60 LEDs/meter
IC	SK6812; single signal control mode
LED type	5050 RGBW
Color channels	4 channels: Red, Green, Blue, White
Grayscale	256 levels for every channel
Voltage	24V
Max Power	24W
Quiescent current	0.27A
LED Viewing angle	120°
LED Luminous intensity [lv]	1000-1300
LED Wavelength [nm]	R: 620-630, G: 515-525, B:460-470
Color Temperature [K]	White: 6000-7000
Channel order	GRBW
Number of Pixels	60
FPC Color	Black/White
Storage temperature	-20° ~ +55°
Operating temperature range	-25° ~ +55°
Waterproof	Yes, IP67
